EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Shaughnessy on 3/2/05.

The application has been amended as follows:

In claim 1, line 6, before pixel electrode, "display" has been inserted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art taught forming the polysilicon pixel electrode and transistor then transferring the device to another substrate. Transferring and substrate are read as typically used in the art and employed in the definition of class 349 subclass 45.

The closest reference, Takasu et al 5637187, transfers then forms the pixel electrode. Display pixel electrode clearly indicates that the pixel electrode is not a detector electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth A. Parker whose telephone number is 571-272-2298. The examiner can normally be reached on M-F 10:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
